Don't Over Think It ("DO IT") Hackathon Sponsorship Guide

June, 2025

What if you could hold your ideas in your hands?

Welcome to DO.IT 2025: a hands-on **hardware hackathon**. Following last year's success (**180 participants, 14 presentations**), we're simplifying tech innovation. Every team gets **beginner-friendly electronics kits** and mentorship from the **MUN Student Design Hub**. Join us in building real, tangible innovations right here in Newfoundland and Labrador.

DO.IT is a different kind of Hackathon

DO.IT 2025 is a **free-form hardware hackathon**—no prompts, no restrictions. Participants have a weekend to build whatever inspires them. We **strongly** believe that in the absence of a prompt, participants feel empowered, not overwhelmed.

The event is **completely free** and welcomes makers of **all skill levels**. The only requirement is a drive to create something awesome. This hackathon cuts through the noise, empowering participants to get hands-on and build practical, tangible solutions.

Enough talking about tech's potential—it's time to **actually build**.

Are you ready to make a difference?

We're looking for partners to help keep the event free of charge by providing meals, funding for swag, equipment, judges, and mentors.

The DO. IT 2025 Agenda

DO. IT Hackathon 2025 blends scrappy innovation with practical, hands-on problem-solving. Participants are invited to build tangible, inspiring hardware projects, supported by mentorship and workshops led by experts from the Memorial University Student Design Hub.

- **In-depth Workshops and Mentorship:** Dive into foundational and advanced skills workshops, collaborate closely with passionate makers, and make a real impact.
- **Community and Collaboration:** Work alongside like-minded individuals passionate about making a tangible difference.

Saturday	9am - 11pm
Sunday	9am - 11pm

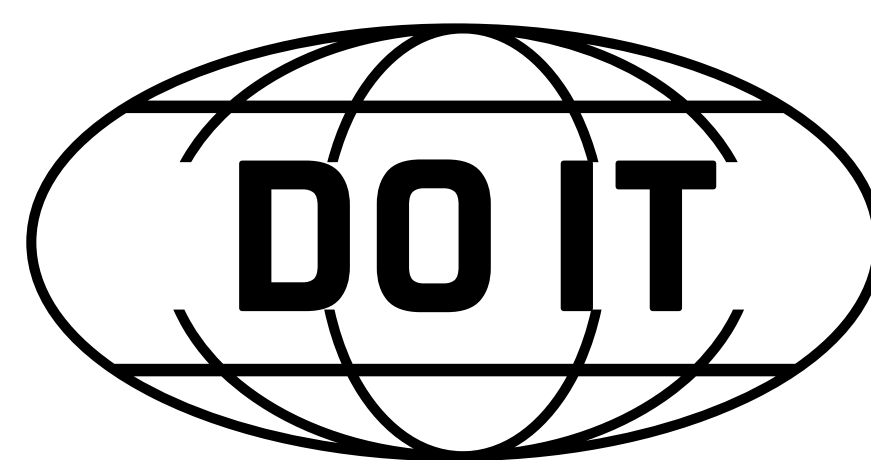

Your Sponsorship Perks

Joining DO. IT as a sponsor means more than just logo placement. It's about becoming part of a movement that values action over words. Your support empowers a diverse group of problem-solvers, ready to dive into the tech scene with fresh ideas.

Your Benefits Include

- **Enriching the Talent Pipeline:** Connect with passionate individuals across various disciplines, ready to bring new perspectives to your team.
- **Engage the Community:** Show your commitment to fostering innovation and support the growth of Newfoundland and Labrador's tech ecosystem.
